

# Great Fraction Challenge

This year we will be taking part in the NSPCC Number Day on Thursday 6th February 2020. Our focus this year is on fractions. Part of the day is about raising money for the NSPCC so we would like your child to take part in the Great Fraction Challenge.

The Challenge will be to take photos representing specific fractions that we send out to your child in as many different ways as possible. We would love it if you could ask family and friends to sponsor your child either per different representation, or for taking part in the event. Your child will have one week to complete the challenge, which will be given to them on Wednesday 29th January. All photos need to be emailed/sent into school no later than 3 pm on Wednesday 5th February. There will be a prize for the child with the most different representations of fractions completed, and a further prize for the most inventive representation!
